Bird Species Observed at the GRNA	1999-2007		1990	
Species	Seasonality	Status	Seasonality	Status

## <u>Notes</u>

## Seasonality

- R = Resident, present all year
- S = Summer, presumed to also breed in area
- M = Migrant, spring and fall only
- W = Winter
- V = Vagrant, accidental or occasional at any time of year

## Status

- A = Abundant, very likely to be seen in large numbers in season
- C = Common, may be seen in smaller numbers in season
- U = Uncommon, seen regularly in small numbers in season
- R = Rare, only occasionally observed, or in limited habitat
